

CHANDON

étoile RESTAURANT FACT SHEET

VISION

étoile, the Michelin-starred restaurant at Domaine Chandon, is one of Napa Valley's most celebrated destinations and the only fine dining restaurant located in a winery. Our goal is to provide the ultimate food and wine experience with an extraordinary setting, innovative cuisine, and seamless service. Our culinary team works closely with Chandon winemakers to explore the interplay between wine and food, enhancing the experience of both. In fact, *étoile* is the only restaurant in the world where the food has as much influence on the wine as the wine has on the food.

HISTORY

The Restaurant at Domaine Chandon introduced fine dining to Napa Valley in 1977, helping establish Yountville as a culinary mecca. Now called *étoile*, the restaurant takes advantage of its placement within a winery; the chef and winemakers have constant dialogue and take into account each other's craft while creating their own. Like Chandon's wines, the menu reflects regional California with a French influence.
